## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 287, 290, 295-297, 300-302 are rejected under 35 U.S.C. 102(b) as being anticipated by Prober et al. (EP0252683B3).

Prober discloses a labeling reagent comprising an aphenylic analog of a rhodamine dye, said analog comprising at least one reactive group for attaching a target (nucleotide). The reactive group comprises hydroxyl. (Page 9 and claims). The nucleotide comprises a phosphate (page 25-28).

Claims 288-289, 291-294, 298, 299, 303 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
